

FIND YOUR PERFECT SPACE JOB

Do you love science and space? There are so many incredible jobs that you could do! Take this quiz to find out which job is the best for you.

What is your favourite subject at school?

- A. Science
- B. Maths
- C. Art
- D. DT
- E. English

Would you rather ...

- A. Play your favourite sport
- B. Carry out an experiment
- C. Design your own outfit
- D. Cook a new meal
- E. Talk to and meet lots of different people

What would be your ideal day out?

- A. A trip to a theme park
- B. A visit to the Science Museum
- C. Shopping
- D. A visit to your favourite restaurant
- E. Going to a party

Would your friends describe you as:

- A. Clever, sporty, team-player
- B. Problem-solver, nerd, scientific
- C. Arty, inventive, fashionable

- E. Convincing, talkative, confident

What would be the coolest thing about working in space?

- A. Flying in a rocket
- B. Discovering new things about the world
- C. Wearing a cool space suit
- D. Trying space food
- E. Telling people about new space technology

Mostly As:

You should be an **ASTRONAUT**! You might have a lot of training to do first though ...

Mostly Bs:

You should be a **SPACE SCIENTIST**! There are lots of different jobs, from growing crystals in space, to working with the human brain.

Mostly Cs:

A **SPACESUIT DESIGNER** is the job for you! Each astronaut needs a suit to fit them perfectly and keep them safe.

Mostly Ds:

You should be a **SPACE CHEF**! Meals need to be yummy, but they have to be safe to eat in microgravity (no crumbs, remember!)

Mostly Es:

If talking is what you like to do, you could be a **SPACECRAFT SALESPERSON**! You must be persuasive enough to sell space technology for the best price possible!
