Book Week Scotland

Book Week Scotland in Libraries 2021

'Book Week Scotland was an ideal opportunity to bring together a range of events and activities as part of an initiative for all ages and abilities which would otherwise have felt quite disparate.'

Library Partner

Libraries ran 667 events for an audience of 14,798

96% of people enjoyed the events they attended

'This year's events have helped us to reach new members, and feedback from those who are already members has been incredibly positive. The in-person events have helped and encouraged old and new members alike to get back to our libraries. Feedback has shown that seeing and talking to our library staff has been very beneficial in giving some of our members confidence to return and use our services.'

Library Partner

'Our Book Week Scotland events have had a very positive effect on our own library staff especially during this current time which gives us a very good platform to move on from, to improve our service and to initiate our development programme.'

Library Partner

Libraries said:

Book Week Scotland helped 92% of them to strengthen links with existing audiences

70% of them could not have held these events without Book Week Scotland

Book Week Scotland helped 85% of them to reach new audiences
