

6. Belonging and Identity

Discussion

1. Which of the characters in *Walk The Walk* “belong”? Which of the characters feel that belonging is an important part of their identity?
2. What are the positive aspects of belonging to something (a family, an area, a club or group)? Are there any negative aspects?
3. Where can you go where you feel like you belong? Do you belong to any groups, clubs or organisations?
4. When you go to these places or attend these clubs or groups, how do you feel? Do you feel like these things are part of your identity?

Follow-up discussion (facilitate discussion around these questions after the learners have completed the activities)

1. Have a look at other Body Maps from your group. Which ones capture your attention, and why?
2. Are there any images or words that appear on lots of the maps in your group? What do other Body Maps in the group have in common with your map?
3. In what ways did drawing your map make you think about your own identity?
